

DIAGONAL PARKING CONSIDERATIONS & GUIDELINES

If you park on the power company lot

If you are the first car to arrive, go north from the church or down 16th Street and park as reasonably close to the utility pole as you can.

If you arrive after someone has parked next to the pole, please park next to them as reasonably close as you can.

Continue this process until all the parking spaces leading up to the corner are taken.

If you are the first car to have to park at the corner, continue to park next to the car on the left as if the guard rail continued straight across. (If done correctly, two cars should be able to park there)

Once the corner is filled, please come up 1st Avenue and park at the corner just east of the cars there.

Continue this process as you come up 1st Ave. from the east.

Parking on 16th St Next to the church building:

Try not to park on 16th Street next to the church, unless all parking spots have already been taken or it's 10 minutes after 10 o'clock.

Then please park diagonally.

Why join the PBC Ride Sharing Ministry?

By joining the riding sharing ministry, you agree to ride with someone else or to pick someone else up on Sunday mornings a month at a time. This is not a program necessarily to pick-up people that may need a ride to church, but of course it can be. It's a ministry to create more parking spaces at the church on Sunday's. So, even if you don't need a ride, but would be willing to ride with someone or have someone ride with you, you will be helping solve our parking problem and you'll have an opportunity for fellowship with others as you come and go from church on Sunday's.
